Hi Tony,

They are hooked up to an agricultural well(s).

Brian

Brian,

Thanks for the notice. A couple of times last month and early this month Clean Delaware was spraying out of the pivot irrigation rigs on the fields along Route 16. Those rigs are not hooked up to an agricultural well. What were they spraying?

Tony

Hello Anthony,

I am in the process of scheduling a hearing. Once a place, date, and time is finalized I will notify you. It will likely be in November.

Thank you,

Hi Brian,

On September 4th, I sent you the email below requesting a public hearing for Clean Delaware's modification of their disposal permit. Has DNREC reached a decision about the hearing and the release of the Clean Delaware/Collins, Russell & Slim Street field and well test records?

Thank you,
Anthony Scarpa

Brian,

Attached is a letter in opposition to any amendment to the above permit. This matter should be the subject of a public hearing given the history of Clean Delaware's permit violations and neighborhood private well contamination.

I look forward to your response.

Thank you,
Anthony Scarpa
